

C7

plurality of images and a first icon formed thereon, said first icon individually identifying the source from which said plurality of images originated.

---

C8

6.(Twice Amended) An album leaf according to claim 1 wherein said icon identifies at least two different sources.

7.(Twice Amended) An album leaf according to claim 1 wherein said second image retaining section of said second side is also provided with a plurality of images and a second icon for individually identifying the source from which each of said plurality of images on said second side originated.

---

C9

8.(Once Amended) An album leaf according to claim 1 wherein said source comprises a film cartridge containing a strip of photographic film, said cartridge having an ID.

C9

9.(Once Amended) An album leaf according to claim 1 wherein said source comprises a CD having an ID thereon.

10.(Once Amended) An album leaf according to claim 1 wherein said source comprises a computer disc having an ID thereon.

11.(Once Amended) An album leaf according to claim 1 wherein said source is a memory storage device.

---

C10

13.(Three Times Amended) A system for displaying, storing and retrieving images, comprising:

an album leaf having a first side having a first image retaining section and a second side having a second image retaining section, said first image retaining section on said first side having a plurality of images and a first icon formed thereon, said first icon for individually identifying the source from which each of said plurality of images originated; and

C10

a binder for containing of said album leaf, said album having a plurality of retaining means for holding items containing the first source of the images contained in said album leaf.

---

C11

18.(Twice Amended) A system according to claim 13 wherein said icon identifies at least two different sources.

---

C12

19.(Twice Amended) A system according to claim 13 wherein said second image retaining section of said second side is also provided with a plurality of images and a second icon formed thereon, said second icon individually identifying the source from which each of said plurality of images on said second side originated.

---

C13

21.(Once Amended) A system for displaying, storing and retrieving images according to claim 13 wherein said source comprises a CD having an ID thereon.

22.(Once Amended) A system for displaying, storing and retrieving images according to claim 13 wherein said source comprises a computer disc having an ID thereon.

23.(Once Amended) A system for displaying, storing and retrieving images according to claim 13 wherein said source is memory storage device.

---

C14

25.(Three Times Amended) A system for displaying, storing and retrieving images, comprising:

an album leaf having a first side having a first image retaining section and a second side having a second image retaining section, said first image retaining section on said first side having a plurality of images and an icon formed thereon, said icon for individually identifying the first source from which each of said plurality of images originated;

a binder for containing said album leaf; and

C14  
a retaining album leaf having a plurality of retaining means for holding items containing the first source of the images contained in said album leaf.

---

C15  
29.(Three Times Amended) A system for displaying, storing and retrieving images according to claim 25 wherein said icon identifies at least two different sources.

---

C16  
30.(Twice Amended) A system for displaying, storing and retrieving images according to claim 25 wherein a second icon is provided on said first image retaining section of said first side for individually identifying a second source from which each of said plurality of images originated, said second source being different from said first source.

---

C17  
31.(Once Amended) A system for displaying, storing and retrieving images according to claim 25 wherein said source comprises a film cartridge containing a strip of photographic film, said cartridge having an ID.

32.(Once Amended) A system for displaying, storing and retrieving images according to claim 25 wherein said source comprises a CD having an ID thereon.

33.(Once Amended) A system for displaying, storing and retrieving images according to claim 25 wherein said source comprises a computer disc having an ID thereon.

34.(Once Amended) A system for displaying, storing and retrieving images according to claim 25 wherein said source is memory storage device.

---

C18  
35.(Three Times Amended) A source retaining album leaf for placement in a binder having at least one album leaf placed therein, said album leaf having a first side having a first image retaining section and a second side

C18  
having a second image retaining section, said first image retaining section on said first side having a plurality of images and a first icon formed thereon, said first icon individually identifying the first source from which each of said plurality of images on said first side originated, said source retaining album leaf having a plurality of retaining means for holding items containing the original source of the images contained in said album leaf.

---

C19  
40.(Three Times Amended) An image-bearing media having a first side having a first image retaining section said first image retaining section on said first side having a plurality of images and a first icon formed thereon, said first icon individually identifying the source from which each of said plurality of images originated.

---

C20  
45.(Three Times Amended) An image-bearing media according to claim 40 wherein said icon identifies at least two different sources. .

---

46.(Three Times Amended) An image-bearing media according to claim 40 wherein said second image retaining section of said second side is also provided with at least one image and a second icon formed thereon, said second icon individually identifying the source from which each of said plurality of images of images originated.

---

C21  
48.(Once Amended) An image-bearing media according to claim 40 wherein said source comprises a CD having an ID thereon.

---

49.(Once Amended) An image-bearing media according to claim 40 wherein said source comprises a computer disc having an ID thereon.

---

50.(Once Amended) An image-bearing media according to claim 1 wherein said source is memory storage device.

---

C22  
52.(Three Times Amended) A system for displaying, storing and retrieving images, comprising:

C22

an image-bearing media having a first side having a first image retaining section and a second side having a second image retaining section, said image retaining section on said first side having a plurality of images formed on said first side originating from a first source and an icon also formed on said first side for individually identifying the source from which each of said plurality of images of images originated; and

a binder for containing said album leaf, said album having a plurality of retaining means for holding items containing the first source of the images contained in said album leaf.

---

C23

57.(Three Times Amended) A system according to claim 52 wherein said icon identifies at least two different sources.

---

C24

58.(Twice Amended) A system according to claim 52 wherein said second image retaining section of said second side is also provided with a plurality of images and a second icon for individually identifying the source from which each of said plurality of images on said second side originated.

---
